HOLY \u2665\u2665\u2665\u2665. A lot of work went into this game, no doubt. The graphics are nice, if old and overly repetitively tiled. The Professor could have more comments, given the pace at which he insults/encourages us. The physics are a little off, and some of the controls are not intuitive. Over all, this game has been done well in the past, and I'd say that it's currently being done better in Amazing Alex and the Incredible Machine. I will not be giving this title more than the half hour I've spent on it.. Ouch. Right in the childhoods.. Know that Ranger doesn't bring anything new to the gameplay (though I like the idea of a hero scout), but it's still the Elven Legacy you know and love.

So if you enjoyed Elven Legacy and want more, don't hesitate. Especially for the price.

Note that this new campaign is clearly easier than Elven Legacy.. Zen Bound is a great game to relax with - the puzzles are never so frustrating as to lose the sense of serenity the game engenders. Its worth a look, at least. I, for one, really enjoy it (even though Syeam reset my achievements and play time on it for some reason).. I simply love all those licensed cars in CMS2015, and Maserati is no exception. You get one classic car and two modern ones to buy, collect and repair. What're you waiting for? Go, get it... :-). Clara I love you. Dogfight 1942 is a fun World War II arcade game that works perfectly with an Xbox controller.. Crazy Taxi + Robotron + a dirty VHS tape of Drive you found in a roadside motel in the drawer where the Gideon Bible usually is. "But Drive came out in 2011", you say, "it didn't get a VHS release". You're right, it's not Nicolas Winding Refn's Drive starring Ryan Gosling. It's some movie recorded off cable claiming to be from 1985 starring "Jim Jameson" but when you search IMDb nothing comes up.

Pro: Excellent moody synth soundtrack, good variety of unlockable vehicles and weapons with different handling & playstyles. Replayability to unlock new maps, vehicles, weapons, watch your pad improve, climb the leaderboard.

Cons: (EDIT: Devs fixed performance issues, thanks!) A little grindy for all the vehicles but it's all optional grind, you could probably get a high score with the starting vehicles after upgrading them.

Figuring out which vehicle is best for you is difficult, as you can't test drive before buying and quickly run out of money buying all the cars unless you are doing \$50k+ runs every time.

Overall just super fun and chaotic but relaxing to play, cause mayhem and go nuts.

P.S. The devs are Finnish and "pako" means "getaway" because you're a getaway car driver.. before the update it was good but now its perfect

i would like to see a new map but i am really happy i got this its worth each penny

Patchouli is my wife and I am canonically her husband. We are happily in love.. I've played *lots* of local multiplayer games on Steam. And this is one of the very best.

Amazing feats of skill or luck seem to happen every few minutes, causing everyone to yell with delight. Of course, we're not actually that skillful, or that lucky — the game is just perfectly tuned to create those moments.

The screen-melting visual effects are great. The soundtrack is great. You can turn your friends into chickens. 5/5. This game is loud, obnoxious, terribly made, laggy, badly designed, and a very poor experience. Since this is only the demo I'm only saying what I've got from that. I don't really understand why this got mostly negative responses. It's a pretty good VN. I never liked voice acting in VNs so I always turn the voices off so I can't comment on that, but the art is nice, love the soundtrack and the story makes me want to play the full version, however I'm still contemplating whether to get it or not. It's unique, a bit confusing but easy to understand and I'm sure it progresses in the full version of course. Cyrus looks like a chick, I really thought he was a girl at first, but hey nothing wrong with a feminine looking guy!. While the story did make me a little uncomfortable a number of times, the story was still cute and touching.
