Pretty premium.. It is fun to play on the side of YouTube. You can easily run this during other games as well. It is easy to listen and play (like Comedy Night). The game is addictive and semi-hard.. Pretty premium.. Please, can you update the level?.

Damn really nice game it made me feel like im in space. Good game for a good price. Mash buttons, hope you land on a block, retry a billion times. Pleasantly surprised by how inventive the levels get.. I would reccomend it if you are a windows user but im on a mac right now and it is very unoptimized and takes a while to load when you click a button. please fix and for now im getting refunded.. this game is so good. thhe graphics are stunning, and for a dollar? its a must get.

NICE Game, its hard to play but it fun to play too with music :). this game is so good. thhe graphics are stunning, and for a dollar? its a must get.. pros: a platformer

cons:

on the upslopes it seems sometimes you can slip between the blocks where there isnt a gap e.g. ~30% on level 1

level 2 has a similar problem but is mostly fine

level 3 was fine

level 4: hard to work out where the surfaces started\ended at the start

overall needs a lot of polishing for it to be worth spending any money on.. This game seems normal at first but its hella tough to beat.. Awesome game for a cheap price!. Challenging and Fun game.

10V10.. fun game for the price, i wish it was a little more AESTHETIC tho. Best 40 cent i've ever spent.
